SUBJECT INDEX VOLUME 23

January (pp. 1–172); February (pp. 173–334); March (pp. 335–484);
April (pp. 485–628); May (pp. 629–768); June (pp. 769–932)

(E) = Editorial; (DS) = Diagnostic Shelf; (HM) = Historical Milestones; (LE) = Letters to the Editor

Abstracts of papers
  from Young Investigators' Awards competition, 307
  presented at the Eighteenth Annual Scientific Session of the American College of Cardiology, 104
Alcoholic cardiomyopathy, 723
Altitude, high
  circulatory dynamics in pulmonary edema from, 369
  systemic blood pressure in white men born at sea level but living at, 364
American College of Cardiology
  Abstracts of papers
    of Eighteenth Annual Scientific Session, 104, 620
    of Young Investigators' Awards competition, 307
  ACCESS (American College of Cardiology Extended Study Services) launched by College, 766, 913
  Awards presented at annual meeting, list of, 756
  Board of Governors 1969–1970, list of, 752
  Committees 1969–1970, list of, 754
  Coronary care units, second national conference on, program of, 764
  Eighteenth Annual Scientific Session
    abstracts of papers of, 104, 620
    general information on, 330
    program and general information on, 146
    room reservation application for, 171, 332
  Martz installed as president, 483
  National conference on coronary care units, 170
  New appointment of Dr. Crockett to Board of Governors, 329
  New members elected to college, list of, 627, 765
Nineteenth Annual Scientific Session, announcement of, 918
  Obituaries
    Chamberlain, John Maxwell, 328
    Goehl, Reinhold O., 916
    Lane, Lowell Lefferts, 328
    Latson, Joseph Robert, 917
    Paoletta, Rocco L., 917
    Pomerantz, Julius, 328
    Rogan, Henry Aaron, 329
    Sivolella, Nicholas William, 628
  Officers, 1969–1970, list of, 752
  Personals, 329, 483, 916
  Postgraduate education calendar, 169, 311, 478, 621, 762, 914
  Postgraduate education courses
    Advances in cardiology, 480
    Clinical application of cardiac catheterization data, 626
    Comprehensive training for the coronary care nurse, 325
    Coronary heart disease: concepts, facts and fallacies, 623
    Current concepts of coronary heart disease, 482
    Electrocardiographic interpretation of arrhythmias: a physiologic approach, 321
    Ischemic heart disease: a therapeutic challenge, 322
    New concepts in the diagnosis and management of failure of the heart as a pump, 317
    Newer concepts of myocardial infarction and diagnostic and therapeutic uses of exercise, 480
    Principles of intensive cardiopulmonary care, 481
    Recent achievements in cardiac surgery: a medicosurgical symposium, 625
    Roentgen diagnosis of diseases of the heart, 624
    Surgical treatment of vascular lesions, 323
    Vectorcardiography–a workshop, 316
  President's page
    ACCESS®, 913
    The eighteenth year of the College, 619
    The patient's family, 168
  Report of executive director, 311
  Sodeman named President-Elect, 916
  Young Investigators' Awards
    announcement of competition for (1970), 767, 919
    abstracts of papers from (1969), 307
Aneurysm
  calcified left ventricular, in children, 739
  false, of left ventricle, after myocardial infarction, 76
  of aortic sinuses and ascending aorta in Turner's syndrome, 89
  of membranous portion of ventricular septum, 83
  of sinus of Valsalva, surgical correction of, 180
Angina pectoris with normal and abnormal coronary arteriograms, 639
  in young women with normal coronary arteriograms, 633
Angiography in determining left ventricular volume and mass in heart disease, 528
Anomalous left coronary artery from pulmonary artery, 858
Anomalous pulmonary venous drainage, total, 801
Anticoagulants in preventing embolism related to D.C. electrical conversion of atrial fibrillation, 208
Aorta
  ascending, aneurysm of, in Turner's syndrome, 89
  coarctation of, plasma renin activity in, 396
  recoarctation of, 778
Aortic arch, left-sided cervical, 285

Aortic ball valve, Starr-Edwards, fracture of, with embolism of ball fragments, 458
Aortic insufficiency
and complete heart block in rheumatoid spondylitis, 888
atypical, in right coronary artery-right atrial fistula, 453
Aortic root, endocarditis of, 192
Aortic sinuses
aneurysm of, in Turner's syndrome, 89
surgical correction of, 180
Aortic stenosis
and exercise capability, 349
cold pressor test in, 38
papillary muscle infarction in, 801
supravalvular, 270
syncope and sudden death in, 647
Aortic valve
congenital quadricuspid, with displaced left coronary orifice, 288
quadricuspid, with hemodynamic abnormality, 291
transplantation of, from calf to man, 199
Arrhythmia, ventricular, clofibrate-induced, 266
Arteriograms
normal and abnormal coronary, and angina pectoris, 639
normal coronary, and myocardial ischemia and necrosis in young women, 633
Artery
coronary
and right atrium, fistula between, presenting as atypical aortic insufficiency, 453
asymptomatic disease of (E), 173
paired pacing after ligation of, 224
left coronary, anomalous origin of, from pulmonary artery, 858
Arthritis, rheumatoid, with cholesterol pericarditis treated by pericardiectomy, 464
Asthma, Rostan on, in aged (HM), 584
Asynergy, left ventricular, 538
Atrial defects
constrictive pericarditis in, 850
spontaneous closure of, during infancy (LE), 912
Atrial fibrillation
embolism related to D.C. electrical conversion of, anticoagulants in prevention of, 208
hemodynamic consequences of, 556
with ventricular slowing in spontaneous subarachnoid hemorrhage, 473
Atrial function and hemodynamic consequences of atrial fibrillation, 556
Atrial myxoma
diagnosis of, 588, 592, 597 (DS)
left
hemodynamic findings in (DS), 592
phonocardiography in diagnosis of (DS), 588
Atrial septal defect
and constrictive pericarditis, 850
and exercise capability, 349
large, surgical closure of, and heart failure, 810
measurement of systemic cardiac output in, during rest and exercise, 258
Atrial systole and cardiac function, 568
Atrioventricular block
advanced, complicating acute myocardial infarction, artificial pacing in, 54
high grade, Wedensky facilitation and effect during, in human heart (DS), 893
in myocardial infarction (LE), 911
ventricular automaticity in, 822
with atrioventricular nodal parasystole (D$), 98
Atrioventricular nodal parasystole with complete atrioventricular heart block (DS), 98
Atrium, right
and right coronary artery, fistula between, presenting as atypical aortic insufficiency, 453
idiopathic enlargement of, 278
Atromid-S and ventricular arrhythmia, 266
Auscultation in acute tricuspid regurgitation, 4

Ball valve prosthesis, Starr-Edwards
fracture of, with embolism of ball fragments, 458
tricuspid valve replacement by, 785
Ballistocardiography and left ventricular pressure measurements in man, 673
Bacterial endocarditis of aortic root, 192
Bedside evaluation of ventricular function, 577
Bethesda Conference Report
Early care for acute coronary suspect, 603
Biomedical Communications, Lister Hill National Center for (E), 629
Blood flow
and coronary pressure relations, effect of norepinephrine on, 417
coronary, inert gas measurements of, 548
Blood pressure, systemic, in white men born at sea level but living at high altitudes, 364
Blunt trauma to chest, transient right bundle branch block after, 877, 884
Body position and exercise, 572
Bronchial collateral vessels in congenital heart disease, 818
Bundle branch block, transient right
after blunt chest trauma, 884
post-traumatic, 877

Calcified left ventricular aneurysm in children, 739
Cardiac asthma in aged (HM), 584
Cardiac contractility, altered, and compensatory mechanisms in heart failure and ventricular hypertrophy, 504
Cardiac cycle
evaluation of, 516
phases of, in evaluation of ventricular function, 577
Cardiac defects and maximal exercise capability in children, 349
Cardiac function and atrial systole, 568
Cardiac necrosis, production of, by steroids and sodium salts, sensitization by corn oil for, 719

Cardiac output, at rest and exercise in atrial septal defect, measurement of, 258
Cardiac pacemakers
experience with, 66
protection of, from D.C. shock, 244
Cardiac pacing and electrocardiographic patterns, 702
for atrioventricular block in myocardial infarction, 54
Cardiac rupture, postinfarction, clinical and pathologic features of, 43
Cardiac surgery with extracorporeal perfusion, serum potassium levels in, 400
Cardiac valves, prosthetic replacement of, 250
Cardiogenic shock, pressor agents in, 900
Cardiomyopathy, alcoholic, 723
Carotid artery
occlusion of, in atrioventricular block, 822
pulse tracings, 577
Catecholamine stimulation, hemodynamic effects of, in mitral stenosis and sinus rhythm, 659
Cervical aortic arch, left-sided, 285
Chest, blunt trauma to, transient right bundle branch block after, 877, 884
Cholesterol pericarditis with rheumatoid arthritis treated by pericardiectomy, 464
Cineangiocardiography in determining left ventricular volume and mass in heart disease, 528
Cineangiographic technics in myocardial performance assessment, 511
Circulatory dynamics during high altitude pulmonary edema, 369
Clicks, late systolic, and murmurs with abnormal mitral valve ring, 679
Clofibrate in induction of ventricular arrhythmia, 266
Coarctation of the aorta
exercise capability in, 349
plasma renin activity in, 396
recoarctation after surgery, 778
Cold pressor test in aortic stenosis and idiopathic hypertrophic subaortic stenosis, 38
Congenital diverticulum of right ventricle, 294
Congenital heart disease, radioisotope scanning of lung in, 387
Congenital quadricuspid aortic valve, 288
Constrictive pericarditis and atrial septal defect, 850
Contractile state of heart, 488, 504, 511, 516
Cor pulmonale, myocardial function in, 667
Corn oil, sensitization by, for production of cardiac necroses by steroids and sodium salts, 719
Coronary arteriograms
normal and abnormal, and angina pectoris, 639
normal, and myocardial ischemia and necrosis in young women, 633
Coronary artery
and right atrium, fistula between, presenting as atypical aortic insufficiency, 453
asymptomatic disease of (E), 173
left, anomalous origin of, from pulmonary artery in severe mitral insufficiency in early infancy, 858
ligation of, paired pacing after, 224
thrombosis of, experimentally induced, 229
Coronary blood flow, inert gas measurements of, 548
Coronary care units, mobile, 603
Coronary heart disease
and physical activity, 298
asymptomatic (E), 173
early care for, 603
myocardial function in, 379
Coronary orifice, displaced, with congenital quadricuspid aortic valve, 288
Coronary pressure and blood flow relations, effect of norepinephrine on, 417
Coronary suspect, acute, early care for, 603
Cyanotic congenital heart disease, intrapulmonary shunts in, after surgical correction, 818

Diagnostic Shelf
Atrial myxoma, a continuing diagnostic challenge, 597
Effect of ventricular alternation on summation gallop sound, 748
Left atrial myxoma, phonocardiographic clues to diagnosis, 588
Unusual hemodynamic findings of diagnostic value in a case of left atrial myxoma, 592
Wedensky facilitation and Wedensky effect during high grade A-V block in human heart, 893
Dilantin (diphenylhydantoin), effect of, on positive inotropic action of ouabain, 712
Diverticulum of right ventricle, congenital, 294
Dopamine in experimentally induced shock, hemodynamic effects of, 217

Edema, pulmonary, high altitude, circulatory dynamics during, 369
Editorial
Duration of hospital stay after acute myocardial infarction, 1
The extent of completely asymptomatic coronary artery disease, 173
The Lister Hill National Center for Biomedical Communications, 629
The mechanism of sinoatrial block, 769
Electrical conversion (D.C.) of atrial fibrillation, embolism related to, anticoagulants in prevention of, 208
Electrical energy of D.C. shock, protection of implanted pacemakers from, 244
Electrocardiogram and vectorcardiogram in single ventricle, 19
Electrocardiographic changes with papillary muscle infarction in congenital heart disease, 801
Electrocardiographic patterns and cardiac pacing, 702
Electromagnetic velocity probe, catheter-tipped, physiologic evaluation of, 424
Electromechanical interval, diagnostic value of, in corrected transposition of great vessels, 684
Embolism
of ball fragments after fracture of Starr-Edwards aortic ball valve, 458
related to D.C. electrical conversion of atrial fibrillation, anticoagulants in prevention of, 208

Endocardial fibroelastosis in anomalous left coronary artery, 858
Endocardial pacing
of outflow and inflow tracts of right ventricle, hemodynamic comparison of, 697
electrocardiographic patterns in, 702
Endocarditis of aortic root, surgical aspects of, 192
Endomyocardial disease, idiopathic, and subacute pericarditis, myocardial function and metabolism in, 667
Enlargement, idiopathic, of right atrium, 278
Exercise
and heart disease, 572
hemodynamic effects of, in mitral stenosis and sinus rhythm, 659
measurement of systemic cardiac output during, in atrial septal defect, 258
myocardial lactate metabolism during, in ischemic heart disease, 771
Exercise tolerance tests and cardiac defects in children, 349
Extracorporeal perfusion and serum potassium, 400

Fallot, tetralogy of, congenital pulmonary valvular insufficiency complicating, 864
False aneurysms of left ventricle after myocardial infarction, 76
Fibrillation, atrial
embolism related to D.C. electrical conversion of, anticoagulants in prevention of, 208
hemodynamic consequences of, 556
with ventricular slowing in spontaneous subarachnoid hemorrhage, 473
Fistula
aorta-pulmonary vein, 872
from systemic artery to pulmonary vein, left to left shunt through, 872
right coronary artery to right atrial, presenting as atypical aortic insufficiency, 453
Force-velocity relations, contractile state of heart as expressed by, 488

Gallop sound, summation, effect of ventricular alternation on (DS), 748
Gas measurements, inert, of coronary blood flow, 548
Geriatric cardiology
Rostan on asthma in the aged (cardiac asthma), 584
Glycosides, myocardial effects of, 712
Great vessels, corrected transposition of, precordial pulsations in, 684

Heart block
atrioventricular
in myocardial infarction (LE), 911
management in acute myocardial infarction, 54
with atrioventricular nodal parasystole (DS), 98
complete, and aortic insufficiency in rheumatoid spondylitis, 888
Heart complex, hypoplastic right, 792
Heart, contractile state of, as expressed by force-velocity relations, 488
Heart disease
and exercise, 572
and orthostatic stress, 354
congenital
complex, anomalous ventricular myocardial patterns in child with, 732
cyanotic, radioisotope scanning of lung in, 387
electrocardiographic changes with papillary muscle infarction in, 801
intrapulmonary shunts in, after surgical correction, 818
coronary
and physical activity, 298
asymptomatic (E), 173
myocardial function in, 379
ischemic, myocardial lactate metabolism in, 771
left ventricular volume and mass in, 528
nondemonstrable, and wide splitting of second heart sound, 690
Heart failure
and ventricular hypertrophy, altered cardiac contractility and compensatory mechanisms in, 504
congestive, and pulmonary hypertension in children with chronic upper airway obstruction, 830
surgical closure of large atrial septal defect and, 810
ventricular asynergy causing, 538
Heart, percussion of, versus roentgen examination (HM), 845
Heart rates, comparable, hemodynamic effects of exercise, catecholamine stimulation and tachycardia in mitral stenosis and sinus rhythm at, 659
Heart sound, second, wide splitting of, without demonstrable heart disease, 690
Heart valves, Tuffier on experimental surgery of (HM), 73
Hemodynamic abnormality with quadricuspid aortic valve, 291
Hemodynamic comparison of endocardial pacing of outflow and inflow tracts of right ventricle, 697
Hemodynamic consequences of atrial fibrillation, 556
Hemodynamic effects
of exercise, catecholamine stimulation and tachycardia in mitral stenosis and sinus rhythm at comparable heart rates, 659
of 3-hydroxtyramine (dopamine) in experimentally induced shock, 217
Hemodynamic findings
in constrictive pericarditis and atrial septal defect, 850
in left atrial myxoma (DS), 592
Hemodynamic technics in myocardial performance assessment, 511
Hemodynamics
after aortic valve transplantation from calf to man, 199
in angina pectoris with normal and abnormal coronary arteriograms, 639

Hemodynamics
in constrictive pericarditis and atrial septal defect, 850
in surgical closure of large atrial septal defect with heart failure, 810
of hypoplastic right heart complex, 792
Hemoglobin-oxygen dissociation, abnormal, with myocardial ischemia and necrosis, 633
Hemorrhage, spontaneous subarachnoid, with atrial fibrillation and ventricular slowing, 473
High altitude pulmonary edema, 369
systemic blood pressure at, 364
Hill National Center for Biomedical Communications (E), 629
Historical Milestones
Bigelow on physical diagnosis (1839), 446
Percussion of heart contrasted with roentgen examination (Williams, 1899), 845
Rostan (1818) on asthma in the aged (cardiac asthma), 584
Tuffier on experimental surgery of heart valves, 73
3-Hydroxytyramine (dopamine) in experimentally induced shock, hemodynamic effects of, 217
Hypertension
pulmonary, and congestive heart failure in children with chronic upper airway obstruction, 830
renovascular, 434
Hypertrophic subaortic stenosis, idiopathic, diagnosed by reflected ultrasound, 32
Hypertrophy, ventricular, and heart failure, altered cardiac contractility and compensatory mechanisms in, 504
Hypoplastic right heart complex, 792
Hypotension, idiopathic orthostatic, successful new therapy for, 838
nitrite-induced, in atrioventricular block, 822

Infarction
myocardial, atrioventricular block in, 54, 911 (LE)
papillary muscle, electrocardiographic changes with, in congenital heart disease, 801
Insufficiency
aortic, and complete heart block in rheumatoid spondylitis, 888
congenital pulmonary valvular, complicating tetralogy of Fallot, 864
severe mitral, in early infancy, 858
Intracardiac phonocardiography in congenital pulmonic insufficiency, 864
Intrapulmonary shunts in cyanotic congenital heart disease, 818
Intraventricular pressure (dp/dt), rate of rise of, in evaluating myocardial contractility, 516
Ischemia, myocardial, and necrosis in young women with normal coronary arteriograms, 633
Ischemic heart disease, myocardial lactate metabolism in, 771

Jugular vein pulsations after tricuspid valve replacement, 785

Lactate metabolism, myocardial, in ischemic heart disease, 771
Letters to the Editor
Atrioventricular heart block in myocardial infarction, 911
Incidence of spontaneous closure of atrial defects during infancy, 912
Lidocaine, legal status of, 616
Ligation of coronary artery, paired pacing after, 224
Lister Hill National Center for Biomedical Communications (E), 629
Liver pulse tracings after tricuspid valve replacement, 785

Mass, ventricular, in heart disease, 528
Metabolism
myocardial, and function in idiopathic endomyocardial disease and subacute pericarditis, 667
myocardial lactate, in ischemic heart disease, 771
Mitral insufficiency, severe, in early infancy, 858
Mitral stenosis and sinus rhythm, hemodynamic effects of exercise, catecholamine stimulation and tachycardia in, 659
Mitral valve
operative risk in replacement of, 335
ring, abnormal, late systolic murmurs and clicks with, 679
Monitoring mechanical activity of heart, ballistocardiogram in, 673
Murmur
late systolic, and clicks with abnormal mitral valve ring, 679
precordial musical, anomalous left ventricular band causing, 735
Muscle infarction, papillary, electrocardiographic changes with, in congenital heart disease, 801
Myocardial contractility
force-velocity relations in, 488
in heart failure and ventricular hypertrophy, 504
rate of rise of intraventricular pressure (dp/dt) in evaluation of, 516
Myocardial contusion with right bundle branch block, 877, 884
Myocardial effects of Dilantin and glycosides, 712
Myocardial function
and metabolism in idiopathic endomyocardial disease and subacute pericarditis, 667
in coronary heart disease, 379
Myocardial infarction
acute, duration of hospital stay after (E), 1
with advanced atrioventricular block, artificial pacing in, 54
atrioventricular heart block in (LE), 911
false aneurysms of left ventricle after, 76
papillary muscle, in congenital heart disease, 801
ventricular asynergy in, 538
Myocardial ischemia and necrosis in young women with normal coronary arteriograms, 633
Myocardial lactate metabolism in ischemic heart disease, 771

Myocardial pacemaker implantations, 66
Myocardial patterns, anomalous ventricular, in complex congenital heart disease, 732
Myocardial performance assessment by hemodynamic and cineangiographic technics, 511
Myxoma
atrial, diagnosis of (DS), 597
left atrial, phonocardiography in diagnosis of, (DS) 588
hemodynamic findings in (DS), 592

Necrosis, myocardial, and ischemia in young women with normal coronary arteriograms, 633
Norepinephrine and coronary pressure-blood flow relations, 417
in treatment of cardiogenic shock, 900

Obstruction
chronic upper airway, in children, pulmonary hypertension and congestive heart failure with, 830
congenital right ventricular infundibular, with chronic pulmonary parenchymal disease, rocks in right ventricle complicating, 744
Operative risk in mitral valve replacement, 335
Orthostatic hypotension, idiopathic, successful new therapy for, 838
Orthostatic stress and heart disease, 354
Ouabain, positive inotropic action of, effect of diphenylhydantoin (Dilantin) on, 712

Pacemakers
myocardial and transvenous implantation of, 66
protection of, from electrical energy of D.C. shock, 244
Pacing
artificial, in acute myocardial infarction complicated by advanced atrioventricular block, 54
cardiac, and electrocardiographic patterns, 702
endocardial, of outflow and inflow tracts of right ventricle, hemodynamic comparison, 697
paired, after coronary artery ligation, 224
transesophageal cardiac, 469
Papillary muscle infarction, electrocardiographic changes with, in congenital heart disease, 801
Parasystole, atrioventricular nodal, with complete atrioventricular heart block (DS), 98
Paredrine in orthostatic hypotension, 838
Parenchymal disease, chronic pulmonary, and congenital right ventricular infundibular obstruction, rocks in right ventricle complicating, 744
Parnate in orthostatic hypotension, 838
Pediatric cardiology
Anomalous ventricular myocardial patterns in complex heart disease, 732
Calcified left ventricular aneurysm, 739
Incidence of spontaneous closure of atrial defects during infancy (LE), 912
Maximal exercise capability as function of specific cardiac defects, 349
Plasma renin activity in coarctation of aorta, 396
Pulmonary hypertension and congestive heart failure in children with chronic upper airway obstruction, 830
Severe mitral insufficiency in early infancy, 858
Percussion of heart versus roentgen examination (HM), 845
Pericardiectomy in treatment of cholesterol pericarditis with rheumatoid arthritis, 464
Pericarditis
cholesterol, with rheumatoid arthritis treated by pericardiectomy, 464
constrictive, and atrial septal defect, 850
subacute, and idiopathic endomyocardial disease, myocardial function and metabolism in, 667
Phonocardiography
in diagnosis of left atrial myxoma (DS), 588
intracardiac, in congenital pulmonary regurgitation, 864
Plasma renin activity in coarctation of aorta in children, 396
Plasma volume and orthostatic stress, 354
Potassium, serum, in cardiac surgery with extracorporeal perfusion, 400
Precordial musical murmur, anomalous left ventricular band causing, 735
Precordial pulsations in corrected transposition of great vessels, diagnostic value of electromechanical interval in, 684
Pressor agents in cardiogenic shock, 900
Pressure
intraventricular (dp/dt), rate of rise of, in evaluating myocardial contractility, 516
measurements, left ventricular, and ballistocardiography in man, 673
Procainamide and ventricular function of conscious dogs, 238
Prosthesis, Starr-Edwards ball valve, tricuspid valve replacement by, 785
fracture of, 458
Prosthetic replacement of cardiac valves, 250
Pulmonary artery, anomalous origin of left coronary artery from, in severe mitral insufficiency in early infancy, 858
Pulmonary edema, high altitude, circulatory dynamics during, 369
Pulmonary hypertension and congestive heart failure in children with chronic upper airway obstruction, 830
Pulmonary parenchymal disease and congenital right ventricular infundibular obstruction, rocks in right ventricle complicating, 744
Pulmonary valve, rheumatic disease of, 12
Pulmonary valvular insufficiency, congenital, complicating tetralogy of Fallot, 864
Pulmonary vein-systemic artery fistulas, 872

Pulmonic atresia and stenosis in hypoplastic right heart complex, 792
Pulsations, precordial, in corrected transposition of great vessels, diagnostic value of electromechanical interval in, 684
Pulses, positive systolic venous, after tricuspid valve replacement with Starr-Edwards prosthesis, 785

Quadricuspid aortic valve
congenital, with displaced left coronary orifice, 288
with hemodynamic abnormality, 291
Quantative anatomy of simple complete transposition, 409

Radioisotope scanning of lung in cyanotic congenital heart disease, 387
Rate of rise of intraventricular pressure (dp/dt), 516
Recoarctation of aorta, 778
Regurgitation, acute tricuspid, auscultation in, 4
Renin, plasma
in coarctation of aorta in children, 396
in renovascular hypertension, 434
Renovascular hypertension, 434
Replacement, tricuspid valve, positive systolic venous pulses after, with Starr-Edwards prosthesis, 785
Rheumatic pulmonary valve disease, 12
Rheumatoid arthritis with cholesterol pericarditis treated by pericardiectomy, 464
Rheumatoid spondylitis, complete heart block and aortic insufficiency in, 888
Rhythm, sinus, and mitral stenosis, hemodynamic effects of exercise, catecholamine stimulation and tachycardia in, 659
Roentgen examination versus percussion of heart (HM), 845
Rostan on asthma in aged (HM), 584
Rubella syndrome and Turner phenotypes, multiple valvular sclerosis in, 94
Rupture, cardiac postinfarction, clinical and pathologic features of, 43

Salts, sodium, production of cardiac necroses by, sensitization by corn oil for, 719
Scanning, radioisotope, of lung, in cyanotic congenital heart disease, 387
Sclerosis, multiple valvular, in Turner phenotypes and rubella syndrome, 94
Second heart sound, wide splitting of, without demonstrable heart disease, 690
Septal defect, atrial
and constrictive pericarditis, 850
measurement of systemic cardiac output in, during rest and exercise, 258
surgical closure of, and heart failure, 810
Septum, ventricular, aneurysm of membranous portion of, 83
Shock
cardiogenic, pressor agents in, 900
direct current, electrical energy of, protection of implanted pacemakers from, 244
direct current electrical conversion of atrial fibrillation, 208
hemodynamic effects of 3-hydroxytyramine (dopamine) on, 217
Shunt
intrapulmonary, in cyanotic congenital heart disease after surgical correction, 818
left to left, through fistula between aorta and pulmonary vein, 872
systemic artery-pulmonary vein, 872
Sinoatrial block, mechanism of, 769
Sinus
aortic, aneurysm of, in Turner's syndrome, 89
of Valsalva, aneurysm of, surgery for, 180
rhythm and mitral stenosis, hemodynamic effects of exercise, catecholamine stimulation and tachycardia in, 659
Sodium salts, production of cardiac necroses by, sensitization by corn oil for, 719
Sound
second heart, wide splitting of, without demonstrable heart disease, 690
summation gallop, effect of ventricular alternation on (DS), 748
Splitting, wide, of second heart sound without demonstrable heart disease, 690
Spondylitis, rheumatoid, complete heart block and aortic insufficiency in, 888
Starr-Edwards ball valve
fracture of, with embolism of ball fragments, 458
tricuspid valve replacement by, 785
Stenosis
aortic, cold pressor test in, 38
aortic supravalvular, 270
aortic, syncope and sudden death in, 647
mitral, and sinus rhythm, hemodynamic effects of exercise, catecholamine stimulation and tachycardia in, 659
subaortic idiopathic hypertrophic, cold pressor test in, 38
diagnosed by reflected ultrasound, 32
Steroids, production of cardiac necroses by, sensitization by corn oil for, 719
Stress, orthostatic, and heart disease, 354
Subacute pericarditis and idiopathic endomyocardial disease, myocardial function and metabolism in, 667
Subaortic stenosis
idiopathic hypertrophic, cold pressor test in, 38
diagnosed by reflected ultrasound, 32
Subarachnoid hemorrhage, spontaneous, with atrial fibrillation and ventricular slowing, 473
Sudden death in aortic stenosis, 647
Surgery
for aneurysm of sinus of Valsalva, 180

Surgery
for coarctation of aorta, 778
for cyanotic congenital heart disease, 818
for mitral valve disease, 335
for renovascular hypertension, 443
for tricuspid valve disease, 785
in endocarditis of aortic root, 192
in hypoplastic right heart complex, 792
in large atrial septal defect, 810
prosthetic replacement of cardiac valves, five and a half years' experience, 250
Sympathetic control of ventricular automaticity, in atrioventricular block, 822
Symposium on Ventricular Function: Clinical Applications Based on New Understanding of Pathophysiology, 485–583
Assessment of myocardial performance in man by hemodynamic and cineangiographic technics, 511
Atrial function and hemodynamic consequences of atrial fibrillation in man, 556
Bedside technics for evaluation of ventricular function in man, 577
Contractile state of heart as expressed by force-velocity relations, 488
Exercise in patients with heart disease: effects of body position and type and intensity of exercise, 572
Heart failure and ventricular hypertrophy: altered cardiac contractility and compensatory mechanisms, 504
Implications of left ventricular asynergy, 538
Inert gas measurements of coronary blood flow, 548
Introduction, 485
Left ventricular volume and mass and their significance in heart disease, 528
Significance of contribution of atrial systole to cardiac function in man, 568
Usefulness and limitations of rate of rise of intraventricular pressure (dp/dt) in evaluation of myocardial contractility in man, 516
Syncope and sudden death in aortic stenosis, 647
Syndrome *(see specific syndrome)*
Systemic artery-pulmonary vein fistulas, 872
Systole, atrial, and cardiac function, 568
Systolic murmurs, late, and clicks with abnormal mitral valve ring, 679
time intervals of cardiac cycle, 577
Systolic venous pulses, positive, after tricuspid valve replacement with Starr-Edwards prosthesis, 785

Tachycardia, hemodynamic effects of, in mitral stenosis and sinus rhythm, 659
Test, cold pressor, in aortic stenosis and idiopathic hypertrophic subaortic stenosis, 38
Tetralogy of Fallot, congenital pulmonary valvular insufficiency complicating, 864
exercise capability in, 349
intrapulmonary shunts in, 818
Thrombosis of coronary artery, experimentally induced, 229
Tonsils and adenoids, enlarged, causing cor pulmonale, 830
Transesophageal cardiac pacing, 469
Transplantation of aortic valve, from calf to man, hemodynamic findings in, 199
Transposition
of great vessels, corrected, precordial pulsations in, 684
simple complete, quantitative anatomy of, 409
Transvenous pacemaker implantations, 66, 888
Trauma
blunt, to chest, transient right bundle branch block after, 884
right bundle branch block after, 877
Tricuspid atresia and stenosis in hypoplastic right heart complex, 792
Tricuspid regurgitation, acute, auscultation in, 4
Tricuspid valve replacement, positive systolic venous pulses after, with Starr-Edwards prosthesis, 785
Turner phenotypes and rubella syndrome, multiple valvular sclerosis in, 94
Turner syndrome, aneurysm of aortic sinuses and ascending aorta in, 89

Ultrasound, reflected, in diagnosis of idiopathic hypertrophic subaortic stenosis, 32

Vagal stimulation in atrioventricular block, 822
Valve
aortic
congenital quadricuspid, with displaced left coronary orifice, 288
quadricuspid, with hemodynamic abnormality, 291
transplantation of, from calf to man, 199
cardiac, prosthetic replacement of, 250
heart, Tuffer on experimental surgery of (HM), 73
mitral, operative risk in replacement of, 335
pulmonary, rheumatic disease of, 12
replacement, tricuspid, positive systolic venous pulses after, with Starr-Edwards prosthesis, 785
ring, abnormal mitral, late systolic murmurs and clicks with, 679
tricuspid
regurgitation, auscultation in, 4
replacement of, 785
Valvular sclerosis, multiple, in Turner phenotypes and rubella syndrome, 94
Vectorcardiogram and electrocardiogram in single ventricle, 19
Velocity probe, electromagnetic catheter-tipped, physiologic evaluation of, 424
Venous pulses, positive systolic, after tricuspid valve replacement with Starr-Edwards prosthesis, 785
Ventricle
left, false aneurysms of, after myocardial infarction, 76
right
congenital diverticulum of, 294

Ventricle, right
endocardial pacing of outflow and inflow tracts of, hemodynamic comparison of, 697
infarction of, in congenital heart disease, 801
rocks in, complicating congenital right ventricular infundibular obstruction with chronic pulmonary parenchymal disease, 744
single, electrocardiogram and vectorcardiogram in, 19
Ventricular alternation, effect of, on summation gallop sound (DS), 748
Ventricular aneurysm, calcified left, in children, 739
Ventricular arrhythmia, clofibrate-induced, 266
Ventricular asynergy, left, 538
Ventricular automaticity, sympathetic control of, 822
Ventricular band, anomalous left, causing precordial musical murmur, 735
Ventricular function
bedside evaluation of, 577
of conscious dogs, lack of effect of procainamide on, 238
symposium on, 485–583
Ventricular hypertrophy and heart failure, altered cardiac contractility and compensatory mechanisms in, 504
Ventricular mass in heart disease, 528
Ventricular myocardial patterns, anomalous, in complex congenital heart disease, 732
Ventricular pressure measurements, left, and ballistocardiography in man, 673
Ventricular septal defect, exercise capability in, 349
Ventricular septum, aneurysm of membranous portion of, 83
Ventricular slowing with atrial fibrillation in spontaneous subarachnoid hemorrhage, 473
Ventricular volume
and mass, left, in heart disease, 528
left, in constrictive pericarditis and atrial septal defect, 850
Volumes, left ventricular, 528, 850, 858

Wedensky facilitation and effect during high grade atrioventricular block in human heart (DS), 893
Williams on percussion of heart versus roentgen examination (HM), 845

Young Investigators' Awards competition, abstracts of papers from, 307

SUBJECT INDEX VOLUME 24

July (pp. 1–150); August (pp. 151–302); September (pp. 303–304);
October (pp. 305–604); November (pp. 605–752); December (pp. 753–926)
(E) = Editorial; (HM) = Historical Milestones; (LE) = Letters to the Editor

Adenosine in ischemic heart, 753, 776
Adrenocortical excretion during automobile driving, 365
Albumin movement and pericardial lymphatic flow, 514
Alternans, total electrical, ventricular bigeminy masquerading as, 287
American College of Cardiology
  Board of Governors, appointments to, 752
  Continuing education programs
    Aggressive approach to coronary heart disease, 292
    Art and science of cardiovascular therapy, 295, 449
    Calendar of, 141, 290, 446, 597, 745, 907
    Cardiology for the consultant: A clinician's retreat, 448
    Cardiology 1970, 292
    Cardiovascular therapeutics, 448
    Clinical cardiology, 600
    Clinical cardiology 1970, 143
    Comprehensive management of myocardial infarction, 599
    Coronary artery disease and cardiovascular therapeutics, 746
    Coronary care units and the mobile coronary care unit: aggressive management of acute myocardial infarction, 145
    Hypoxia, high altitude and the heart, 451
    Mechanisms and therapy of cardiac arrhythmias, 143
    New developments in arrhythmias: a workshop, 751
    Pericardium in health and disease, 144
    Physician and intensive coronary care, 748
    Second annual symposium on clinical cardiology; recent advances in treatment of coronary artery disease, 747
    Symposium on cardiac nursing, 146
  Heart House, report of Ad Hoc Committee for, 743
  in Athens, 601
  New members elected, 297
  Nineteenth Annual Scientific Sessions, announcement of, 149, 300, 454, 605, 752, 912
  Obituaries
    Bayley, Robert H., 298
    Fahr, George Edmeston, 299
    Walker, Harry, 299
    Webster, John Joseph, 601
    Weiss, Herman, 299
  Personals, 147, 298, 601
  President's Page
    Audiovisual instruction at home, 596
    $50,000 gift for Heart House, 906
    Records on cardiac auscultation, 147
    Report of the Ad Hoc Committee for Heart House, 743
    Scenes of the 18th Annual Scientific Sessions reconvened in San Juan, Puerto Rico, 148
    Television for physicians, 751
    Young Investigators' Awards, announcement of competition for, 150, 301, 454, 604
Ammonia inhalation in man, 187
Amyloidosis and acid mucopolysaccharides, 358
Anaphylaxis, experimental cardiac, 474
Anastomoses
  coronary, 393
  systemic to pulmonary arterial
    and unilateral rib notching, 441
    for cyanotic congenital cardiac disease, 335
Aneurysm
  ascending aortic, in Marfan's syndrome, 426
  coronary, Bougon on (HM), 551
  dissecting, of aorta, 111
  of membranous ventricular septum, 531
Angina pectoris
  in Fabry's disease, 95
  placebo response in (E), 305
Angiographic evidence of collateral circulation, 393
Angiographic technics in determining left ventricular volume, 72
Angiography
  and total anomalous pulmonary venous connection below the diaphragm, 436
  in diagnosis of internal mammary artery fistulas, 414
Angiokeratoma corporis diffusum universale, 95
Angiotensin I and II in human pulmonary circulation, 544
Anterior chest movements, glossary of cardiologic terms for, 444
Antibodies to heart tissues, 508
Anticoagulant agents
  and fetal risk in pregnant patients with ball valve prosthesis, 853
  and skin necrosis, 420
Antigenic composition of heart tissue, 508
Aorta
  and pulmonary artery originating from right ventricle, 118
  dissecting aneurysm of, 111
  pseudocoarctation of, with coarctation, 584
Aortic arch anomalies, embryologic basis of, 584
Aortic arch, congenital double-lumen, 279
Aortic insufficiency, "original" descriptions of (HM), 731
Aortic stenosis, syncope and exercise in (LE), 594
Aortic valvular and functional hypertrophic subaortic stenosis, 307

Aortography in dissecting aneurysm of aorta, 111
Arch, persistent fifth arterial, 279
Arrhythmias
  and pacing with esophageal electrode, 548
  and sudden death, 612
  during ischemia, effects of glucose on, 713
  in Wolff-Parkinson-White syndrome, 259, 265
    overdrive suppression of, 814
  pathogenesis of, in acute myocardial infarction, 791, 836 (E)
  sinus, after heart transplantation, 54
Arteries, great, corrected transposition of, 125
Arteriolar dilatation, 776, 782
Arteriosclerotic heart disease
  and vectorcardiographic T loop, 18
  sudden death in, 617
Artery
  internal mammary, fistulas of, 414
  left anterior descending coronary, and dissecting hematoma, 409
  left subclavian, aneurysmal dilatation of, 584
  left vertebral, hypoplasia of, 584
  pulmonary
    and aorta originating from right ventricle, 118
    banding of, 580
    branch, stenosis of, 318
  renal, and dissecting aneurysm of aorta, 111
Asystole and resuscitation after cardiac arrest, 666
Atrial enlargement and high gain, high frequency vectorcardiogram, 8
Atrial rate and atrioventricular conduction abnormalities with myocardial infarction, 707
Atrial septal defect
  and abnormal initial QRS vectors, 346
  and left ventricular failure, 209
  and mongolism, 354
  and pulmonic stenosis, 130
Atrial tachycardia in Wolff-Parkinson-White syndrome, 265
Atrioventricular block
  and artificial pacing, 814
  and factors increasing atrial rate, 707
  and scarred summit of muscular ventricular septum, 880
Atrioventricular canal, complete, and its evolution with age, 326
Atrioventricular nodal pathways in reciprocal rhythm, 224
Atrioventricular node and arrhythmias in acute myocardial infarction, 791
Atrioventricularis communis and mongolism, 354
Atrium, left and right, enlargement of, 8
Atropine
  and atrioventricular block, 707
  and sinus arrhythmia after heart transplantation, 54
  self-administration of, in myocardial infarction, 826
Auscultation, cardiac, teaching of (E), 151
Auscultatory findings in pulmonary artery branch stenosis, 318
Autoantibodies to heart tissue *(see also Symposium on immunity and the heart)*, 459
Autoimmunity to heart in cardiac disease, 459
Automaticity, enhancement of, in His-Purkinje system, 800, 857
Automobile driving and catecholamine and adrenocortical excretion, 365

Bacteria, role of in endocarditis (HM), 876
Bacterial endocarditis and ventricular septal perforation after myocardial infarction, 432
Ball valve prosthesis and coumarin therapy in pregnant patients, 853
Beta adrenergic blocking agents and aortic valvular and functional hypertrophic subaortic stenosis, 307
Beta receptor blockade and cardiac adrenergic activity in experimental heart failure, 198
Bigeminy, ventricular, masquerading as total electrical alternans, 287
Biochemical aspects of immune reaction in heart, 474
Blood-borne factors and arrhythmias in acute myocardial infarction, 791
Blood flow, coronary, heterogeneity of, 782
Blood gas abnormalities in acute myocardial infarction, 838
Blood pressure, diazoxide in reduction of, 870
Bradycardia
  and myocardial infarction, 666
  in acute myocardial infarction, 814, 826
Bronchopulmonary arterial communications in pulmonary atresia with ventricular septal defect, 570
Bundle branch block
  incomplete bilateral, diagram for recognition of, 890
  left
    and Wenckebach phenomenon, 591
    hemiblock in, 1
    trifascicular, 880

Calcific pulmonic stenosis, 130
Calcium, serum, and systolic time intervals, 42
Capillary permeability and pericardial effusion, 514
Carbohydrate abnormalities in coronary artery disease, 178
Cardiac catheterization and oxygen uptake in sedated infants and children, 376
Cardiac hypertrophy in Fabry's disease, 95
Cardiac output and lidocaine, 191
Cardiac pacing with an esophageal electrode, 548
  (see also Catheter)
Cardiac revascularization, factors controlling, 776
Cardiomyopathies, immune mechanism in, 459
Catecholamines
  excretion of, during automobile driving, 365
  in failing heart, 198

Catheter
flexible, in temporary transvenous pacing, 269
in perforation
of heart, 274
of interventricular septum, 269
pacing, and atrioventricular block, 707
transvenous pacemaker, perforating interventricular septum, 269
Catheterization in diagnosis of isolated right ventricular hypoplasia, 135
Cineangiocardiogram and aneurysm of membranous ventricular septum, 531
Cineangiogram, left ventricular, in muscular subaortic stenosis, 689
Clinical fellowship in cardiovascular disease, announcement of, 602
Coarctation of aorta with pseudocoarctation, 584
Coincidence counting in measurement of myocardial blood flow, 154
Collateral flow to myocardium through pericardial splenosis, 369
Collateral vessels, coronary, 393
Conduction
disturbances of
and atrial rate, 707
and concealed extrasystoles, 283
and myocardial infarction, 814
asymptomatic, in middle-aged men, 629
retrograde, and concealed extrasystoles, 283
sinoventricular, related to sinoatrial (E), 831
system, embryology of, 59
Conference on medical devices, 896
Congenital heart disease
and isolated Marfan's syndrome, 409
and physical activity of children (E), 605
and mongolism, 354
atrial septal defects and pulmonic stenosis, 130
cyanotic, and acquired pulmonary atresia, 335
diverticulum of the heart and ventricular septal defect, 580
double-lumen aortic arch, 279
dye-dilution technic in assessment of myocardial function in, 79
high gain, high frequency atrial vectorcardiogram in, 8
mitral regurgitation, isolated, 241
mitral stenosis corrected by ball valve prosthesis, 237
pseudocoarctation of aorta with coarctation, 584
pulmonary atresia and ventricular septal defect, 570
stenosis of pulmonary artery branch, 318
Congestive heart failure
and corrected transposition of great arteries, 125
in Fabry's disease, 95
lidocaine in, 191
Connective tissue defect *(see Marfan's syndrome)*
Contractile force after ventricular fibrillation, 537
Coronary aneurysm, Bougon on (HM), 551
Coronary arteriograms and collateral circulation, 393
Coronary arteriole, dilatation of, by diazoxide, 865
Coronary artery disease *(see also Coronary heart disease and Symposium on the Pre-Hospital Phase of Acute Myocardial Infarction)*
and stress of automobile driving, 365
heterogeneity of coronary blood flow in, 782
lipid and carbohydrate abnormalities in, 178
nitroglycerin in, 154
surgical aspect of (E), 455
Coronary atherosclerosis, absence of, in coronary thrombosis, 564
Coronary care unit, mobile, and myocardial infarction, 666
Coronary collateral circulation
development of, 776
in living man, 393
Coronary collaterals, significance of (E), 303
Coronary flow
and diazoxide, 865
and nitroglycerin, 154
regulation of, 776
study of, by inert gas technics, 782
Coronary heart disease
and arterial hypoxemia and hyperoxia, 166
oxygen inhalation and myocardial lactate metabolism in, 172
Coronary occlusion
acute, ventricular vulnerability during, 857
and arteriolar dilatation, 776
Coronary resistance, 776
and diazoxide, 865
Coronary sinus blood lactate and potassium levels in myocardial ischemia, 766
Coronary thrombosis without coronary atherosclerosis, 564
Coumarin
and fetal risk in pregnant patients with ball valve prosthesis, 853
and skin necrosis, 420
Cystic medial necrosis and hemorrhagic intramedial dissection of coronary artery, 409

Death
fear of, and arrhythmias in acute myocardial infarction, 791
sudden
in arteriosclerotic heart disease, 617
in coronary artery disease, 612
Decision technics and pre-hospital coronary care, 674
Delay
in hospitalization for acute myocardial infarction, 659
in response to signs of acute myocardial infarction, 651
Depolarization
alteration in, and diagnosis of intraventricular septal perforation, 269
timed right and left atrial, and origin of P waves, 28
Devices, medical, national conference on, 896
Diabetes and coronary artery thrombosis, 564

Diagnosis, early, of myocardial infarction *(see Symposium on the Pre-Hospital Phase of Acute Myocardial Infarction)*
Diazoxide
  and coronary blood flow, 865
  in management of severe hypertension, 870
Diet, low sodium and high potassium, in myocardial infarction (E), 607
Digitalis in aortic valvular and functional hypertrophic subaortic stenosis, 307
Direct isotope visualization of heart, 72
Diverticulum of the heart, 580
Down's syndrome and congenital heart disease, 354
Dysrhythmias
  and myocardial infarction, 666
  asymptomatic, in middle-aged men, 629

Echocardiography and recognition of interventricular septal echoes, 523
Ectopic beats and myocardial infarction, 814
Editorials
  New aspects of the placebo response in angina pectoris, 305
  On the significance of coronary collaterals, 303
  Physical activity of children with congenital heart disease, 605
  Polarizing treatment for myocardial infarction, 607
  Sinoventricular conduction and its relation to sinoatrial conduction, 831
  Surgical aspect of coronary artery disease, 455
  Teaching cardiac auscultation, 151
Education, public, and acute myocardial infarction, 659
Ehlers-Danlos syndrome in association with Marfan syndrome, 734
Electrical hazards
  and pacing with esophageal electrode, 548
  in modern hospitals, 896
Electrocardiogram
  after human heart transplantation, 49
  and concealed extrasystoles, 283
  and evidence of collateral supply to myocardium through pericardial splenosis, 369
  and myocardial ischemia, 766
  and rejection of heart transplant, 492
  and Wenckebach phenomenon in left bundle branch block, 591
  during automobile driving, 365
  in detection of perforation
    of heart, 274
    of interventricular septum, 269
  in hyperpotassemia (E), 831
  in incomplete bilateral bundle branch block, 890
  in intermittent left anterior hemiblock, 1
  in interpretation of bradyarrhythmias, 814
  in reciprocal rhythm, 224
  in trifascicular bundle branch block, 880
  in ventricular bigeminy masquerading as total electrical alternans, 287
  in Wolff-Parkinson-White syndrome, 259
  vs. timed vectorcardiogram in atrial abnormality, 8
Electrogram and P wave origin, 28
Electrolyte changes in myocardial ischemia, 753
Electron microscopic study of heart in Fabry's disease, 95
Embryology of cardiac conduction system, 59
Endocarditis, experimental (HM), 876
Esophageal electrode in cardiac pacing, 548
Evaluation of pre-hospital coronary care, models for, 674
Excitability, depression of, in ischemic ventricle, 857
Exercise
  and S–T segment depression, 161
  in aortic stenosis (LE), 594
  tolerance improved by propranolol, 161
Extrasystoles, concealed, 283

Fabry's disease, heart in, 95
Fiberoptic dye-dilution technic in assessment of myocardial function, 79
Fistula, internal mammary artery, and continuous precordial murmurs, 414

Geriatric cardiology
  pulmonic stenosis and atrial septal defects, 130
Glossary of cardiologic terms related to physical diagnosis and history, 444
Glucose
  and myocardial potassium ion transfers and arrhythmias during ischemia, 713
  tolerance test in coronary artery disease, 178
Glycogen in myocardial ischemia, 753

Heart block
  cardiac pacing in, see Pacing
  complete, caused by corrected transposition of great arteries, 125
  in a dog, clinicopathologic study of, 59
  in myocarditis, 880
Heart failure, experimental, cardiac adrenergic activity in, 198
Heart rate reduced by propranolol, 161
Heart recipient pool, 500
Heart sound
  simulator (E), 151
  splitting of second (LE), 595
Heart tissue, antigenic composition of, 508
Heart transplantation *(see also Symposium on immunity and the heart)*
  and orthotopic cardiac prosthesis, 723
  electrocardiogram after, 49
  in man, compilation of cases, 554
  rejection after, 492
  sinus arrhythmia after, 54
Hematoma, dissecting, of left anterior descending coronary artery, 409
Hemiblock, intermittent left anterior, 1
Hemodynamic changes after oxygen administration in acute myocardial infarction, 838

Hemodynamic effects
of ammonia inhalation, 187
of lidocaine on patients with heart disease, 191
of nitroglycerine, 154
Hemodynamics
in congenital mitral regurgitation, 241
of complete atrioventricular canal, 326
Heparin, substitution of, after coumarin-induced skin necrosis, 420
Heparitin sulfate in amyloid disease, 358
His bundle
activation time and supraventricular tachycardia, 37
and arrhythmias in acute myocardial infarction, 791
Histamine release in experimental cardiac anaphylaxis, 474
Histochemical study of heart in Fabry's disease, 95
Histocompatibility in human heart transplantation, 500
Historical Milestones
Aortic insufficiency; "original description," 731
Bougon on coronary aneurysm (1812), 551
Experimental endocarditis (Wyssokowitsch, 1886), 876
Schonlein on hydrothorax (1832), 234
Sir James Mackenzie and his polygraph; the contribution of Louis Faugeres Bishop, Sr., 401
HL-A antigens in heart transplantation, 500
Hyaluronic acid in amyloid disease, 358
Hydrothorax, Schonlein on (HM), 234
Hyperoxia, blood, and myocardial oxygen availability, 166
Hypertension
in Fabry's disease, 95
pulmonary, after systemic to pulmonary arterial anastomosis, 335
treated by diazoxide, 879
Hypertensive heart disease and sudden death, 617
Hypertrophic subaortic stenosis, functional, and aortic valvular stenosis, 307
Hyperventilation, alveolar, and oxygen therapy, 838
Hypoplasia, isolated, of right ventricle, 135
Hypoxemia, arterial
and oxygen availability for myocardial metabolism, 166
and oxygen therapy, 838

Immune mechanism in cardiac disease *(see also Symposium on Immunity and the Heart)*, 459
Immunosuppressive agents after cardiac transplantation, 492
Incomplete left bundle branch block, 1, 591
Inert gas technics in study of coronary flow, 782
Inotropic action of calcium, 42
Intercoronary vessels in myocardial ischemia, 776
Interlobular septum, edema of, and Kerley B lines, 436
Internodal pathways
and arrhythmias in acute myocardial infarction, 800
and sinoventricular conduction (E), 831
Interventricular septum
echoes of, studied by ultrasound, 523
perforated by transvenous pacemaker catheter, 269
Intracardiac volumes assessed by fiberoptic dye-dilution technic, 79
Ischemia *(see myocardial ischemia)*
Isoproterenol and atrioventricular block, 707

Kerley B lines in total anomalous pulmonary venous connection below the diaphragm (type III), 436

Lactate
alterations in, during oxygen administration, 172
and arterial hypoxemia, 166
in myocardial ischemia, 753, 766, 776
Left anterior hemiblock, intermittent, 1
Left ventricular failure vs. right ventricular success, 209
Left ventricular outflow obstruction, 118
in hypovolemic shock, 404
Left ventricular work
during oxygen administration, 172
effect of nitroglycerin on, 154
reduced by propranolol, 161
Letters to the Editor
Splitting of the second heart sound, 595
Syncope and exercise in aortic stenosis, 594
Lidocaine
in heart disease, 191
in myocardial infarction, 800
in Wolff-Parkinson-White syndrome, 265
Lipoprotein patterns in coronary artery disease, 178
Lungs, role of, in renin-angiotensin system, 544
Lymph flow and ^{131}I-albumin resorption from pericardial effusions in man, 514

Marfan syndrome
in association with Ehlers-Danlos syndrome, 734
isolated, 409
with massive calcification of mitral annulus, 426
Medical devices, national conference on, 896
Metabolic abnormalities in coronary artery disease, 178
Metabolic changes in myocardial ischemia, 753, 766
Mitochondrial damage and ischemic injury, 753
Mitial annulus, massive calcification of, and Marfan's syndrome, 426
Mitral arcade, anomalous
and congenital mitral regurgitation, 241
and congenital mitral stenosis, 237
Mitral regurgitation
in muscular subaortic stenosis, 689, 698
isolated, 241
Mitral stenosis corrected by ball valve prosthesis, 237
Mitral valve replacement, seven years' experience in, 336
Mobile coronary care unit and acute myocardial infarction, 666
Models for evaluating pre-hospital coronary care, 674
Mongolism and congenital heart disease, 354
Mucopolysaccharides, acid, and amyloidosis, 358

Murmurs
continuous precordial, due to internal mammary artery fistulas, 414
systolic
and intraventricular pressure gradient in hypovolemic shock, 404
ejection, and pulmonary artery branch stenosis, 318
Muscle shortening and contractile state of muscle, 542
Muscular subaortic stenosis, ventricular cineangiographic observations in, 689
Myocardial blood flow, effects of nitroglycerin on, 154
Myocardial contractility, and serum calcium level, 42
Myocardial fiber shortening and serum calcium levels, 42
Myocardial function
after electrically induced ventricular fibrillation, 537
assessed by fiberoptic dye-dilution technic, 79
Myocardial infarction
acute, symposium on pre-hospital phase of, 609–688; 753–830
and atrial rate, 707
and coronary artery thrombosis without coronary atherosclerosis, 564
and ischemic ventricle, 857
and isolated Marfan's syndrome, 409
and oxygen therapy, 838
and ventricular septal perforation complicated by bacterial endocarditis, 432
in Fabry's disease, 95
polarizing treatment for (E), 607
Myocardial ischemia *(see also Symposium on the Pre-Hospital Phase of Acute Myocardial Infarction)*
and administration of 100 percent oxygen, 172
and effects of glucose, 713
metabolic changes in, 178, 753, 766
Myocardial oxygen availability
and hyperoxia, 166
and propranolol, 161
Myocardial perforation by pacing catheter electrode, 269, 274
Myocardial revascularization in coronary artery disease (E), 455
Myocarditis, smoldering, with atrioventricular block and Stokes-Adams syndrome, 880

Nitroglycerin
and myocardial blood flow, 154
in aortic valvular and functional hypertrophic subaortic stenosis, 307
vasodilator action of, 776
Norepinephrine depletion and beta adrenergic blockade, 198

Occluded limb technic in measurement of venous tone, 220

Outflow tract
obstruction to, and assessment of mitral regurgitation, 698
right ventricular, pacing from, 269
Outpatient study unit for patients with coronary artery disease, 826
Overdrive suppression of arrhythmias in acute myocardial infarction, 814
Oxygen availability for myocardial metabolism, 166
Oxygen deficiency and cell death in ischemic injury, 753, 766
Oxygen inhalation and myocardial lactate metabolism in coronary heart disease, 172
Oxygen therapy in correction of arterial hypoxemia, 838
Oxygen uptake, continuous determination of, during cardiac catheterization, 376

P waves
after human heart transplantation, 49
and timed right and left depolarization, 28
in atrial enlargement, 8
polarity of, and supraventricular tachycardia, 37
Pacemakers, permanent implanted pervenous, and catheter perforation of the heart, 274
Pacing
and atrioventricular block, 707
and catheter perforation of heart, 274
temporary transvenous, and perforation of interventricular septum, 269
transvenous right ventricular, in acute myocardial infarction, 814
Papillary muscles and mitral stenosis, 237
Parasympathetic reinnervation of heart after transplantation, 54
Patent ductus arteriosus and mongolism, 354
Pathogenesis of arrhythmias in myocardial infarction, 791, 836 (E)
Pediatric cardiology
ball valve prosthesis in congenital mitral stenosis, 237
congenital heart disease and mongolism, 354
continuous determination of oxygen uptake during cardiac catheterization, 376
coumarin-induced skin necrosis in a sixteen year old girl, 420
diverticulum of the heart, 580
infundibular pulmonary stenosis and spontaneous closure of ventricular septal defect, 247
isolated right ventricular hypoplasia, 135
physical activity in children with congenital heart disease (E), 605
surgical correction of total anomalous pulmonary venous drainage below the diaphragm, 575
total anomalous pulmonary venous connection below the diaphragm, 436
Pericardial effusions and lymph flow, 514
Pericardial splenosis and collateral flow to myocardium, 369
Pericarditis, tuberculous, and ventricular bigeminy, 287
Pharmacologic aspects of immune reaction in heart, 474

Physical activity of children with congenital heart disease (E), 605
Physiology of experimental cardiac anaphylaxis, 474
Plasma kinins in cardiac anaphylaxis, 474
Pleural adhesions and unilateral rib notching, 441
Polarizing treatment for myocardial infarction (E), 607
Polygraph of Sir James Mackenzie (HM), 401
Postcardiotomy syndrome, immune mechanism in, 459
Postinfarction syndrome, immune mechanism in, 459
Potassium
  arrhythmias induced by, 831
  in ischemic heart, 776
  ion transfers during ischemia, 713
  in myocardial ischemia, 766
Pre-hospital phase of acute myocardial infarction
  problems of, 612
  symposium on, 609–688; 753–830
Pressor responses to angiotensin administration, 544
Pressure
  gradient, intraventricular, in hypovolemic shock, 404
  left atrial, and atrial septal defect, 209
Preventive medicine, case for, and arteriosclerotic heart disease, 617
Propranolol
  and exercise-induced ischemic S–T segment depression, 161
  and sinus arrhythmia after heart transplantation, 54
  in aortic valvular and functional hypertrophic subaortic stenosis, 307
  in assessment of cardiac adrenergic activity, 198
  in idiopathic recurrent ventricular fibrillation, 255
Prosthesis
  directing left ventricular outflow into aorta, 118
  Hufnagel valve and coumarin therapy, 853
  mitral valve, 386
  orthotopic cardiac, in two-staged cardiac replacement, 723
  Starr-Edwards
    aortic valve, 426
    ball valve, 237, 853
Pseudocoarction of aorta with coarctation, 584
Pulmonary artery
  and administration of angiotensin, 544
  and aorta originating from right ventricle, 118
Pulmonary atresia
  acquired, and cyanotic congenital heart disease, 335
  and ventricular septal defect, bronchopulmonary arterial communications in, 570
Pulmonary hypertension and mitral valve replacement, 386
Pulmonary oligemia and unilateral rib notching, 441
Pulmonary stenosis
  and atrial septal defect, 130
  branch, 318
  infundibular, and spontaneous closure of ventricular septal defect, 247
Pulmonary vascular resistance
  and mitral valve replacement, 386
  and ventricular septal defects, 326
Pulmonary venous obstruction, 575
Purkinje fibers, enhanced automaticity in, 800

QRS vectors, abnormal initial, in atrial septal defect, 346
Quinidine sulfate and ventricular fibrillation, 259

Radiographic monitoring during temporary transvenous pacing, 269
Radioisotope-angiography in determination of left ventricular volume, 72
Reciprocal rhythm, mechanisms in, 224
Reentrant activity in acute myocardial infarction, 800
Rejection of cardiac transplant *(see also Symposium on Immunity and the Heart)*, 492, 554
Resuscitation measures after myocardial infarction, 666
Reversed reciprocal rhythm, 224
Rheumatic fever, immune mechanism in, 459
Rib notching, unilateral, due to systemic to pulmonary anastomoses with bilateral pulmonary oligemia, 441
Right ventricular outflow tract obstruction, 335
Rubidium in measurement of myocardial blood flow, 154

Second heart sound, splitting of (LE), 595
Serotonin in experimental cardiac anaphylaxis, 474
Serotyping in human heart transplantation, 500
Serum lactic dehydrogenase and rejection of cardiac transplant, 492
Shock, hypovolemic, systolic murmur and intraventricular pressure gradient in, 404
Shunt
  left to right
    and left ventricular failure, 209
    and ventricular septal defect, 247
  pulmonary artery to right atrium, 209
Sinus arrhythmia after heart transplantation, 54
Sinus nodal changes in myocardial infarction, 791
Smelling salts, hemodynamic effects of, 187
S–T junction, depressed, in myocardial ischemia, 766
S–T segment depression, effect of propranolol on, 161
Stenosis
  aortic valvular and functional hypertrophic subaortic, 307
  of pulmonary artery branch, 318
Stokes-Adams syndrome and intermittent complete atrioventricular block with smoldering myocarditis, 880
Streptococcus, group A
  and antigens of heart tissue, 508
  and pathogenesis of rheumatic fever, 459
Stress of driving and coronary artery disease, 365
Sudden death
  in aortic stenosis (LE), 594
  in arteriosclerotic heart disease, 617
  in coronary artery disease, 612
Supraventricular premature contractions and coronary heart disease, 629

Surgery *(see also heart transplantation)*
and coronary artery disease (E), 455
and internal mammary artery fistulas, 419
and ventricular septal defect, 247
atrial septostomy in left ventricular failure, 209
for severe obstruction to left ventricular outflow, 118
in aortic valvular and functional hypertrophic subaortic stenosis, 307
in cyanotic congenital heart disease, 335
in diverticulum of the heart, 580
in Marfan's syndrome with massive calcification of mitral annulus, 426
in total anomalous pulmonary venous drainage below the diaphragm, 436, 575
mitral valve replacement, 237, 386
thoracotomy and unilateral rib notching, 441
Symposium on Immunity and the Heart, 457–513
Antigenic composition of heart tissue, 508
Autoimmunity to the heart in cardiac disease; current concepts of the relation of autoimmunity to rheumatic fever, postcardiotomy and postinfarction syndrome and cardiomyopathies, 459
Experimental cardiac anaphylaxis; physiologic, pharmacologic and biochemical aspects of immune reactions in the isolated heart, 474
Introduction, 457
Rejection of the cardiac transplant, 492
Serotyping for homotransplantation; XXIV, heart transplantation, 500
Symposium on the Pre-Hospital Phase of Acute Myocardial Infarction; part I, 609–688; part II, 753–830
Acute coronary occlusion: early changes that induce coronary dilatation and the development of collateral circulation, 776
Biochemical aspects of early myocardial ischemia, 766
Clinical significance of bradycardic rhythms in acute myocardial infarction, 814
Delay in hospitalization during the acute coronary period, 659
Early phase of myocardial ischemic injury and infarction, 753
Factors contributing to delay in responding to the signs and symptoms of acute myocardial infarction, 651
Frequency of asymptomatic disturbances of cardiac rhythm and conduction in middle-aged men, 629
Heterogeneity of coronary blood flow in human coronary artery disease and experimental myocardial infarction, 782
Introduction, 609
Mechanisms of ventricular arrhythmias associated with myocardial infarction, 800
Models for the evaluation of pre-hospital coronary care, 674
Pathogenesis of arrhythmias in acute myocardial infarction, 791
Pre-hospital coronary care; the mobile coronary care unit, 666
Pre-hospital management of acute myocardial infarction, 826
Problems of the pre-hospital phase of acute myocardial infarction, 612
Sudden death in arteriosclerotic heart disease. The case for preventive medicine, 617
Syncope and exercise in aortic stenosis (LE), 594
Systolic ejection murmur in pulmonary artery branch stenosis, 318
Systolic murmur in hypovelemic shock, 404
Systolic time intervals and acute changes in serum calcium, 42

T loop, vectorcardiographic, in arteriosclerotic heart disease, 18
Tachycardia, supraventricular, and single electrical stimulus, 37
Terminology related to physical diagnosis and history, 444
Tests, provocative, of myocardial ischemia, 826
Tetralogy of Fallot
and mongolism, 354
and ventricular septal defect, 247
Thrombosis, coronary, without coronary atherosclerosis, 564
Tissue typing in cardiac transplantation, 500, 554
Total anomalous pulmonary venous drainage below the diaphragm, 436, 575
Transposition of great arteries, corrected, causing complete heart block, 125
Trifascicular bundle branch block, 880

Ultrasound in estimation of right and left ventricular size, 523
Unidirectional block in reciprocal rhythm, 224

Valve
aortic, replacement of by Starr-Edwards prosthesis, 426
Hufnagel, and coumarin therapy during pregnancy, 853
left atrioventricular, and corrected transposition of great arteries, 125
mitral
and bacterial endocarditis, 434
prosthetic replacement of, 386
pulmonic, calcification of, 130
Valvular heart disease and combined Ehlers-Danlos and Marfan syndrome, 734
Vasoactive agents in pulmonary circulation, 544
Vasoactive substances, pharmacology of, in tissue anaphylaxis, 474
Vasodilator metabolites and myocardial ischemia, 776
Vectorcardiogram
atrial, high gain, high frequency and atrial abnormality, 8

in atrial septal defect, 346
T loop in, and arteriosclerotic heart disease, 18
Venous wall tension, methods for detection of changes in, 220
Ventricle
ischemic, and vulnerability to ventricular fibrillation, 857
left
in cineangiographic studies of muscular subaortic stenosis, 689
right
and left to right shunt, 209
dilatation of, in atrial septal defect, 346
double outlet, and ventricular septal defect, 118
isolated hypoplasia of, 135
Ventricular arrhythmias
in middle-aged men, 629
in myocardial infarction, 857
in myocardial ischemia, 753
mechanisms of, in myocardial infarction, 800
Ventricular bigeminy masquerading as total electrical alternans, 287
Ventricular dysrhythmias in middle-aged men, 629
Ventricular ectopic beats in myocardial infarction, 800
Ventricular extrasystoles, 283
and ventricular fibrillation in myocardial infarction, 857
Ventricular fibrillation
and ischemic ventricle, 857
and myocardial infarction, 537, 666
and pacing with esophageal electrode, 548
idiopathic recurrent, 255
in Wolff-Parkinson-White syndrome, 259
prevention of, in myocardial infarction, 800
Ventricular function after ventricular fibrillation, 537
Ventricular premature contractions and ventricular fibrillation, 255
Ventricular septal defect
and bacterial endocarditis after myocardial infarction, 432
and double outlet right ventricle, 118
and mongolism, 354
and muscular diverticulum of left ventricle, 580
and pulmonary atresia, bronchopulmonary arterial communications in, 570
and pulmonary vascular resistance, 326
spontaneous closure of, 531
and infundibular pulmonary stenosis, 247
Ventricular size, estimation of by ultrasound, 523
Ventricular volume, determination of by radioisotope-angiography, 72
Ventriculomyotomy and assessment of mitral regurgitation after, 698

Wenckebach phenomenon
and atrial rate, 707
in left bundle branch block, 591
Wolff-Parkinson-White syndrome, ventricular fibrillation in, 259
atrial tachycardia in, 265
ventricular tachycardia in, 259
